**FEATURES**

- **2-LEVEL PUZZLE.**
  We added 6 modules of 2-Level Puzzle parking, instantly doubling their parking capacity. With the allowable ceiling height, we were able to add an additional level of parking.

- **30 SPACES.**
  This Oakland garage was experiencing demand that exceeded their capacity. CityLift was hired to increase the existing parking capacity by 50%. By doing so, this owner gained additional operating income adding instant value to their property.

- **COMPLETION DATE: OCTOBER 2015**
CityLift Parking designs, installs, and services automated parking systems that reduce the footprint needed for parking and can typically be done at a lower cost per space than conventional parking. With over 60,000 parking spaces of our systems installed in 13 countries around the world over the past 15 years, we believe we are the first company that brings a wide range of proven best-in-class products at a great value, combined with a professional-level focus on quality and service.

CityLift is headquartered in Oakland, CA, with offices in Los Angeles, Chicago, Miami, and Boston.
